Gentleman—We wish to make a public acknowledgment to Mesers JOS L. HALL & CO., of this city manufacturers or HALL'S PATENT CONCRETE FIREPROOF SAFES, for the spendid manner in which the safes of their make preserved their contents in the late Opera house fire, which destroyed our office. We had seven of their safes, two of them of the largest size, all of which stoot the most severe tests to which any freproof safes have ever been subjected. All of these safes fell into the burning mass of ruins, and were then exposed to an intense heat from the burning debris which surrounded them, for from forty six to one hundred and twenty hours, yet all of their contents, which comprised an immense amount of mosey, bonds, effect plate, and other valuables were restored to us uninjured. We are, for this, of course, greatly pleased, and think that after this experience we can recommend them to any one who may want a sure Debts secured by Mortgage, to-wit: interest 6 per ct. Your attention is called to PERRY'S PATENT TUYERE BELLOWS NOZZLE, which gives the blast on the byttom instead of the side or the fire, and makes a quicker and hotter fire than is possible otherwise. It gives one, two or three blasts on the same fire, and spreads the heat over a wide surface or concentrates it on a point, at pleasure. Thus, the whole wing or bar of a plow can be heated evenly and perfectly, without danger of burning, and what, with ordinary Tuyeres, requires five or six heats, can be done at one. It saves greatly in time, iron and fuel. The fire is completely under the control of the Blacksmith, and no fuel is wasted. It never gete hot, and will last indefinitely. apilisiawim TERRY & MITCHELL. PRICES, ACCORDING TO -SIZE, \$15,00
